

[PAID Internships in Software Development, Data Analytics and Cyber Security.](#)

Internship Program

This Program is designed to provide high school students enrolled in Jefferson, Lewis, and St. Lawrence county educational institutions, with opportunities to work at Keyes Information Technology. The program provides opportunities to explore careers in software development, data analytics, and cyber security while still in school and while getting paid for the work performed. Students who successfully complete the program may be eligible for paid Summer positions.

Requirements

- Current high school students enrolled in Jefferson, Lewis, and St. Lawrence county educational institutions, must have excellent analytical abilities.
- Excellent written and verbal communication skills with the ability to work independently or as part of a team.

How to Apply

- Submit the following documents to Cassandra Chartrand at cassandra.chartrand@keyesinfotech.com with “KIT Internship” in the subject line:
 - Transcript
 - One letter of recommendation
 - A one-page, single spaced letter of interest which addresses the following:
 - Prior IT or computer related coursework & activities
 - Prior and current extracurricular activities
 - Expected graduation date
 - Long-term career goals

About Keyes Information Technology, LLC

Keyes Information Technology, LLC or KIT is a IT Security professional services organization based in Watertown New York with Fortune 500 and multinational customers in the Financial Services, Consumer Industrial Products, and Healthcare industries.

We offer 11 paid vacation days per year and employee benefits to include health insurance and a 401K matching program. On an annual basis, our consultants receive at least 40 hours of technical training in order to pursue IT certifications.
